Objective

Fourth-year Software Engineering student with experience in C#, JavaScript, TypeScript, Node.js, Solidity, Unity, and WebGL. Seeking a Developer Intern/Fresher position to contribute to Web, Blockchain, Application, or Game projects and further develop my software engineering skills.

Education

Vietnam - Korea University of Information & Communication Technology

Da Nang, Vietnam

Engineering Degree in IT, Major in Software Engineering | **GPA: 3.38/4.0**

2023 – 2028 (Expected)

Work Experience

Game Developer Intern

Jun 2026 – Jul 2026

Purus Games

Da Nang, Vietnam

- **Graphics Development:** Built 2D/3D apps with JavaScript, PixiJS, HTML5 Canvas, and WebGL.
- **Shader Programming:** Built GLSL shaders for texturing, lighting, transforms, and camera effects.
- **Development Workflow:** Used Git for version control and debugging across development tasks.

Technical Skills

Languages: C#, Java, JavaScript, TypeScript, Solidity, SQL

Web & Backend: HTML/CSS, Node.js, REST APIs, WebSocket

Game & Graphics: Unity, PixiJS, WebGL, GLSL

Blockchain: Smart Contracts, Token/NFT Development, Testnet Deployment

Databases & Tools: PostgreSQL, MySQL, Git, Postman

Projects

Vecto Arena – Cross-Platform 3D Multiplayer Game

2026

Unity, C#, Colyseus, Node.js, TypeScript, PostgreSQL, Solidity

Links: Client | Server | Demo

- **Gameplay:** Developed cross-platform multiplayer gameplay, combat, weapons, UI, and match systems for PC and mobile.
- **Networking & Backend:** Built real-time multiplayer features using Colyseus WebSocket, Node.js, TypeScript, and PostgreSQL.
- **Blockchain:** Developed token and NFT smart contracts using Solidity and deployed them to blockchain testnets.

Unifire2D – 2D Top-Down Space Shooter

2025

Unity, C#

Links: GitHub | Demo | Playable

- **Gameplay Systems:** Developed movement, shooting, enemies, collisions, health, scoring, and game-state systems.
- **Game Feel & Persistence:** Implemented local high-score persistence, UI, particle effects, audio, and published a playable build.

Languages

English: Technical document reading and basic workplace communication.
